APPROVAL OF STATE ENGINEER			
This is to certify I have examined the foregoing application, and do hereby grant the same, subject to the following			
limitations and conditions:  This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 36016 is issued subject to the terms and conditions imposed in said Permit 36016 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  This permit does not extend the permittee the right of ingress ad egress on public, private or corporate lands.  The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.  This permit is issued subject to the water management plan and water management plan addendum among Barrick Goldstrike Mines, Inc.; Newmont Gold Company, and T S Ranch Joint Venture dated May 1, 1989.  Any water not used for mining and milling purposes by Barrick Goldstrike Mines, Inc. and Newmont Gold Company shall be utilized by the T S Ranch for irrigation (CONTINUED ON PAGE 2)  The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to			
exceed 5.4 cubic feet per second, and not to exceed a yearly			
duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.			
Work must be prosecuted with reasonable diligence and be completed on or before. September 15, 199			
Proof of completion of work shall be filed before.  October 15, 1990			
Application of water to beneficial use shall be made on or before September 15.			
Proof of the application of water to beneficial use shall be filed on or before			
Map in support of proof of beneficial use shall be filed on or beforeQctober 15,

## (PERMIT TERMS CONTINUED)

purposes on land presently described under the place of use under Permits 16951, Certificate 5605; 16952, Certificate 5606; 28966, Certificate 10226; 28967, Certificate 10227; 29952, Certificate 10043; 29953, Certificate 10044; 30240, Certificate 10046; 30241, Certificate 10047; 30242, Certificate 10048; 30253, Certificate 10229; 30849, Certificate 10057; 31288, 31289, 34766, 34767, 34768, 34769, 34770, 34771, 34772, 34773, 36020, 36021, 36022, 36023, 36024, 52941, 52942, 52943, 52944, 52945, 52946, 52947, 52948, 52949 and 52950 or any subsequent changes of the place of use of these rights. The intent in the interests of the best and most efficient management of the resource is to substitute water from dewatering of the pit area for water presently authorized to be withdrawn from the Boulder Flat Groundwater Basin under the above described permits. The total duty of water for the irrigation use authorized under the above described permits cannot exceed the duty allowed for the irrigation rights.

This water will be stored in a storage reservoir for the use on the lands of the T S Ranch. The construction of this storage reservoir will require that the parties to the management plan obtain all of the necessary permits for such construction.

The parties to the management plan shall submit a monitoring plan to the State Engineer within three months after the issuance of this permit. This plan must address all aspects of potential impacts resulting from any pumping of water including the dewatering of the pit area. The State Engineer retains the right to require the parties of the management plan to cooperate in the funding of a hydrology study to be conducted by an independent third party.

A monthly report shall be submitted to the State Engineer within 10 days from the end of the month which shall include the amount pumped from each well.

The place of use under Permits 52941 through 52950, inclusive, is limited to 2513.6 acres within all of Section 25 and Section 36, T.35N., R.48E., M.D.B.&M.; and the SE‡ Section 19, SW½ Section 20, W½ Section 28, all of Section 29, E½ Section 30, NE½ Section 31 and NW½ Section 32 all in T.35N., R.49E., M.D.B.&M.
